DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed February 14, 2008 are acknowledged.
2. Examiner acknowledges amended claims 1, 6 and 11-12.
3. The rejection of claims 1-12 under 35 U.S.C. 103(a) as being unpatentable over Oosedo et al., U.S. Pre Grant Publication 2002/0007022 is overcome by applicant's amendment.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Oosedo et al., U.S. Pre Grant Publication in view of Sakajiri et al., U.S. Pre Grant Publication 2005/0271874.

Oosedo discloses a carbon fiber reinforced resin composite comprising a carbon reinforcing fiber impregnated in a resin composition (see paragraph 0015). The reference also discloses that the composition comprises an epoxy group containing vinyl ester resin (see paragraphs 0102-0103). The reference also discloses a curing agent for the epoxy resin wherein the curing agent is an imidazole as per instant claims 3 and 8 (see paragraph 0042). It is disclosed in paragraph 0127 that the composition comprises an organic peroxide as a curing agent as per instant claim 2 and 7. Paragraph 0124 discloses that the composition comprises a polymerizable monomer.

Art Unit: 1794

Paragraph 0104 of the reference discloses that the polymerizable unsaturated bond for the resin is an acrylic acid or methacrylic acid as per instant claims 4 and 9. Paragraph 0217 of the reference discloses that the composition is produced by kneading the resin mixture as per instant claims 11 and 12. The reference claims disclose that the epoxy group has an equivalent of 0.5 to 5 parts by weight and that the ethylenically unsaturated group has an equivalent of .5 to 20 parts by weight. The reference does not disclose that the carbon fiber is impregnated with a sizing agent in the amount of 03 to 5% by mass comprising a vinyl ester resin. Sakajiri discloses a sizing agent for a carbon fiber strand for a carbon fiber reinforced resin composite material. Sakajiri discloses in paragraph 0037 that the sizing agent can comprise vinyl ester resin present in the amount of 0.3 to 5% by mass (see paragraph 0016). A sizing agent affects the adhesion of the carbon fibers and the matrix. Therefore, it would have been obvious to impregnate the carbon fiber strand in the Oosedo reference with a sizing agent as disclosed in the Sakajiri reference in order to have a carbon fiber reinforced resin composite that has superior interlaminar strength.

Response to Arguments

6. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 1794

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
